## ORDER

Re: **People v Antoine Deion McKinney**  
Docket No. **265532**  
L.C. No. **05-002338-01**

Michael J. Talbot, Judge, acting under MCR 7.217, orders:

The motion to reinstate is DENIED for failure to establish that the transcripts have been properly ordered or there are grounds for considering the court reporters in contempt for their failure to file certificates to confirm that the transcripts have been ordered. The Court will consider a timely motion for reconsideration of this order if it is supported by the necessary stenographers' certificates or documentary evidence that the transcripts have been properly ordered and there are grounds for considering the court reporters in contempt of Court. If the transcripts have been properly ordered and the appropriate deposits have been paid, appellant may file a motion to order the court reporters to show cause along with a motion for reconsideration of this order.
